groku

part of your success

INDIVIDUALISATION BY DESIGN

ATTRACT THE ATTENTION OF YOUR CUSTOMERS WITH AN INDIVIDUAL DESIGN

DECORATION/CONTAINER COLOURS

In addition to various standard colours, **groku** offers the possibility of implementing customer-specific colour requests. Transparent buckets and lids are also possible, of course. We are happy to comply with your colour wishes based on PANTONE, RAL or HKS specifications.

ARTWORK/LAYOUT

Even the most elaborate designs can be realised. Using the groku In-Mould-Labelling (IML) process, your buckets or lids will be decorated over the entire surface. Use the entire surface of the packaging to make the product even more attractive.

CUSTOM-MOULDING

DO YOU WANT SOMETHING COMPLETELY DIFFERENT?

If our wide product range does not offer the right container for your requirements - no problem. Our product developers will be happy to work with you to design the optimum packaging variant. You will benefit from our many years of experience in the development of plastic packaging and individual mould solutions.

Particularly in terms of sustainability, an optimal tool design offers great potential for conserving resources through material savings.

All our packaging is 100% mono-material packaging and 100% recyclable!

PRODUCT GROUP EZE ROUND BUCKETS

ART. NO.	EZE 1180
Article	Round bucket
DIN volume	1.2 litres
Top diameter	132 mm
Height with lid	132 mm
Optional	Sealing lid

ART. NO.	EZE 2300
Article	Round bucket
DIN volume	2.2 litres
Top diameter	175 mm
Height with lid	132 mm

THE GROKU GREEN LOOP

OUR CONTRIBUTION TO OUR COMMON GOAL: CLIMATE NEUTRALITY AND OPTIMAL CONDITIONS FOR THE RECYCLING OF PLASTIC PACKAGING.

GROKU GREEN LOOP

1. CONSERVATION OF RESOURCES
2. RECYCLABLE PACKAGING
3. USE OF RECYCLED MATERIAL
4. CLIMATE NEUTRALITY
5. ADDED VALUE THROUGH SECONDARY USE
6. RAISING CUSTOMER AWARENESS
7. REUSABLE PACKAGING

find more information on: https://www.groku.de/en/recycling/groku-green-loop/

At **groku** we are convinced that the future is becoming more sustainable – step by step. We focus on recycling: since 2011 we manufactured about 15 million buckets made of post-consumer recycled material. Together with our customers we will continue on this path – in line with our groku green loop.
